Cruise Control*
Maintain a constant vehicle speed without having to keep your foot on the accelerator pedal. Use cruise control on freeways or open roads where you can travel at a constant speed with little acceleration or deceleration. Cruise control is not available when Snow, Mud, or Sand is selected for Intelligent Traction Management.

Activating and Setting the Vehicle Speed
1. Press the CRUISE button. The CRUISE MAIN indicator appears.
2. Accelerate to the desired speed (above 25 mph/40 km/h). Take your foot off the pedal and press the -/SET button to set the speed. The CRUISE CONTROL indicator appears.

Adjusting the Vehicle Speed
Press the RES/+ button to increase speed or the -/SET button to decrease speed.
Each time you press the button, the vehicle speed is increased or decreased by about 1 mph (1.6 km/h). If you keep the button pressed, the vehicle speed increases or decreases until you release it.

Canceling Cruise Control
Press the CANCEL button or the brake pedal. The CRUISE CONTROL indicator goes off.
After cruise control has been canceled, you can still resume the prior set speed by pressing the RES/+ button while driving at a speed of at least 25 mph (40 km/h).
Press CRUISE to turn the system off.

Adaptive Cruise Control (ACC)*
Helps maintain a constant vehicle speed and a set following interval behind a vehicle detected ahead of yours. Adaptive cruise control is not available when Snow, Mud, or Sand is selected for Intelligent Traction Management (see page 112).

Activating and Setting the Vehicle Speed
1. Press the MAIN button. The ACC indicator appears in the MID.
2. Accelerate to the desired speed (above 25 mph/40 km/h). Take your foot off the pedal and press the -/SET button to set the speed.

Adjusting the Vehicle Speed
Press the RES/+ button to increase speed or the -/SET button to decrease speed.
Each time you press the button, the vehicle speed is increased or decreased by about 1 mph (1.6 km/h). If you keep the button pressed, the vehicle speed increases or decreases by 5 mph (5 km/h) until you release it.

Adjusting the Vehicle Distance
Press the Distance button to change the following interval. Each time you press the button, the setting cycles through extra long, long, middle, and short.

Switching to Standard Cruise Control
Press and hold the Distance button. Cruise Mode appears in the multi-information display. Press and hold the button again to switch back to ACC.

*if equipped

**WARNING**
Improper use of the cruise control can lead to a crash.
Use cruise control only when traveling on open highways in good weather.
