Car wash mode

If you are driving through a conveyor-style car wash where you or the attendant
do not remain in the vehicle, follow these steps while the engine is on:

1. Press and hold the brake pedal.
2. Press and release N (Neutral).
3. Press and hold N again for two seconds. The engine remains on, and
the transmission remains in Neutral. To turn off the engine but keep the
transmission in Neutral, press the ENGINE START/STOP button.

The transmission remains in Neutral for 15 minutes. After 15 minutes, the gear
position changes to Park and the vehicle turns off.

*if equipped
Electronic Gear Selector*

**Park (P):** Used for parking or starting or turning off the vehicle. Press P with the brake pedal pressed. A red indicator appears.

**Reverse (R):** Used for reversing. Pull back R. A green indicator appears.

**Neutral (N):** Used for idling. Press N. A red indicator appears.

**Drive (D/S):** Used for normal driving (D) or driving in sequential mode (S). Press D/S once for normal driving. Press D/S twice for sequential mode driving. A green indicator appears. Make sure the parking brake is released.

---

**WARNING**

The vehicle can roll away if left unattended without confirming that Park is engaged. Always keep your foot on the brake pedal until you have confirmed that P is shown on the gear position indicator.

---

**NOTICE**

When you change from D to R and vice versa, press the brake pedal and come to a complete stop, then select the intended gear position while maintaining brake pressure.

**Auto park mode**

For your convenience, Park (P) is automatically selected when all of the following conditions are met:

- The vehicle is stopped.
- The driver’s seatbelt is unbuckled.
- The driver’s door is opened.

**Car wash mode**

If you are driving through a conveyor-style car wash where you or the attendant do not remain in the vehicle, follow these steps while the engine is on:

1. Press and hold the brake pedal.
2. Press and release N (Neutral).
3. Press and hold N again for two seconds. The engine remains on, and the transmission remains in Neutral. To turn off the engine but keep the transmission in Neutral, press the ENGINE START/STOP button.

The transmission remains in Neutral for 15 minutes. After 15 minutes, the gear position changes to Park and the vehicle turns off.

*if equipped
Sequential Mode*

Use the paddle shifters to change gears without removing your hands from the steering wheel.

When the transmission is in D: Press D/S once. The vehicle goes into sequential shift mode momentarily, and the gear selection indicator comes on. When you start traveling at a constant speed, sequential mode and the gear position indicator automatically go off.

When the transmission is in S: Press D/S twice. The vehicle goes into sequential mode, and the M (sequential mode) indicator and gear selection indicator come on. Use the paddle shifters to change gears.

To cancel this mode, hold the + paddle shifter for two seconds or press D/S again. The M indicator and gear selection indicator go off.
